RELEVANT SKILLS & COURSEWORK

Programming Languages Python, C++, Java, C
Elective courses include Compilers, Graph Theory, Computer Security, Machine Learning

Dynamic Generic Map (C++ 11)

- Growable, templated map similar to `std::map` using a binary search tree
- $O(\log n)$ average case lookup and insertion; bidirectional iteration provided

Decision Tree for Music Genre Classification (Python)

- Pre and post pruned decision tree to decide genre given a song's acoustic features
- Harnessed 3rd party libraries `pandas` and `pydot` for data processing and visualization respectively

Compiler Semantic Checking (Java)

- Multiple passes over AST for name resolution and type checking for Decaf subset of Java

Miniature Shell (C)

- Simple Unix-style shell with I/O redirection, signal handling, and job control

Client/Server Word Counter (C)

- Multi-threaded TCP server handles client requests over for N most frequent words among files
 - Server offers clean shutdown via signal and also logs transaction details
-

EMPLOYMENT
